Audio-books are very useful for many people

Nowadays we can listen to the most of books. It is amazing! You can listen to the book and do some thing else at the same time. A good dicter can make your listening to better than your reading. Many people think that audio-books are better and more interesting than paper books. The most of them haven't got a free time enough for the paper books. But they want to read it. There are the pluses of audio-book. And now we should to talk about minuses.

Audio-books have one big minas. There are not benefit for our ear. We have to wear earphones for a long time. It isn't good for our health.

As for me, audio-books are very useful for many people. It is a great chance for them to make their knowledge more deep than now. I really like that we have this amazing opportunity. I often listen to classical, ~~two~~ fantasy,

detective and other kinds of books. I listen  
to ~~new~~ modern novels too. For example, some  
times ago I listened to Harry Potter.  
It was a great experience! The director was  
very good and I really enjoyed it.  
To <sup>be</sup> sum up, this opportunity is very  
usefull for many people all over  
the world and helps them to keep  
their time.
